## EDUCATION

**Wilfrid Laurier University | Waterloo, ON**

**June 2026**

**B.S. in Computer Science**

**Relevant Courses:** Intro To Programming, Data Structures I, Digital Electronics, Object-Oriented Programming, Data Structures II, Intro to Microprocessors, Discrete Struct for Comp. Sci., Algorithm Design/Analysis I, Computer Networks, Database I, Microeconomics, Macroeconomics

## TECHNICAL SKILLS

**Languages/Frameworks/Etc:** Python, Java, NodeJS, ReactJS, JavaScript, CSS, MongoDB, HTML, C, Swift, C#

**Editors:** Visual Studio, Eclipse, Pycharm, XCode

## PERSONAL PROJECTS

**Personal Website | ReactJS, CSS | [LINK](#)**

**September 2024**

- Built a personal portfolio website using **ReactJS** and **CSS** to showcase my skills and present video demos of all my projects
- Integrated EmailJS for a functional contact form, enabling direct communication from visitors

**NYT Connections Recreation | NodeJS, ReactJS, MongoDB, CSS**

**August 2024**

- Recreated the New York Times' game Connections using the **MERN** stack, integrating AI through OpenAI's API to dynamically generate word categories, and used **MongoDB** for tracking game state, with a custom **NodeJS** backend and **ReactJS** frontend
- Implemented real-time game logic with word bank resets and API testing through **Postman** to ensure smooth gameplay and accurate data handling

**Spotify-Wrapped-Project | Python**

**November 2023**

- Utilized **Python** to leverage the Spotify Web API and its user authorization, enabling users to view their recently played most-listened songs through an intuitive user interface allowing users to choose between 10-25 of their top tracks across various time ranges and view information about each song

**BlackJack-Game-App | Swift**

**August 2023**

- Developed a fully functional blackjack game app with **Swift** and **SwiftUI**, gaining hands-on experience in iOS app development

## WORK EXPERIENCE

**Online Grocery Associate | Walmart | Milton, ON**

**December 2020 - Present**

- Excelled in high-pressure situations, such as during peak times or crises like the COVID-19 pandemic, by remaining calm and focused while delivering exceptional service to customers in need
- Proven track record of handling challenging customer interactions with empathy and professionalism, including situations involving rude or distressed customers, contributing to a positive brand image
- Maintained meticulous records of orders, returns, and customer interactions, utilizing organizational skills to streamline operations and enhance efficiency
- Experienced in providing inclusive customer service by assisting and training individuals with disabilities, ensuring accessibility and fostering a welcoming environment
