## EDUCATION

Wilfrid Laurier University | Waterloo, On

June 2026

Bachelor's of Science in Computer Science

**Relevant Courses:** Intro To Programming, Data Structures I, Digital Electronics, Object-Oriented Programming, Data Structures II, Intro to Microprocessors, Discrete Struct for Comp. Sci., Algorithm Design/Analysis I, Computer Networks, Database I

## TECHNICAL SKILLS

**Languages/Frameworks/Etc:** C, CSS, HTML, Java, JavaScript, MongoDB, NodeJS, Python, ReactJS, SQL, Swift

**Other Tools:** Eclipse, GitHub, Open-AI API, MS-Tools (Excel, Powerpoint, Word) Postman, PyCharm, Visual Studio

## PERSONAL PROJECTS

**Personal Website | ReactJS, CSS | [WEBSITE LINK](#)**

Present

- Developed a responsive personal portfolio using ReactJS and CSS to showcase projects, education, and technical skills. Users can see video demos of my project experiences
- Strengthened frontend development and UI/UX design skills, focusing on responsive/cross-platform web design and user interaction. Worked with Git for version control and working across devices

**AI Interview-Simulator | ReactJS/NodeJS**

December 2024

- Advanced expertise in full-stack development by creating an AI powered technical interview simulator with ReactJS and NodeJS, leveraging Open-AI's API for dynamic question generation and real-time feedback.
- Improved REST API implementation and backend architecture design, focusing on adaptability to user inputs and efficient server-client communication.

**NYT Connections Recreation | NodeJS, ReactJS, MongoDB, CSS**

August 2024

- Created a MERN stack clone of the New York Times Connections game, integrating Open-AI API to dynamically generate categories and words, enhancing gameplay engagement
- Refined backend development skills through REST API integration, debugging and troubleshooting with Postman, and efficient database management using MongoDB, ensuring system accuracy and reliability

**BlackJack Game App | Swift**

August 2023

- Developed a free Blackjack game in Swift, implementing core game mechanics and user interface (UI) using SwiftUI
- Enhanced skills in iOS development, game development, and UI design, focusing on performance and user experience

## WORK EXPERIENCE

**Online Grocery Associate | Walmart | Milton, On**

December 2020 - Present

- Managed over 300+ customer orders weekly, ensuring accurate order fulfillment and high quality service, contributing to the store's operational goals and customer satisfaction
- Demonstrated strong problem-solving and interpersonal skills by quickly addressing order discrepancies, system errors, and customer concerns, ensuring a seamless customer experience even during fast-paced times
- Collaborated with a team to manage tasks under tight deadlines, adapting to changing processes and responsibilities, which developed my adaptability and teamwork abilities
